

BAJA LAMA

THE SPEED OF SOLITUDE — SPRING / SUMMER 2021

The background of the image is a complex, repeating pattern. It features stylized zebra heads, some facing left and some facing right, interspersed with various tropical leaves and palm fronds. The color palette is limited to white and two shades of blue: a light, airy blue and a darker, more saturated blue. The pattern is dense and covers the entire frame.

Baja Llama's Spring 2021 Collection of Primo Graphic Tees pays homage of days past and future, to freedom of movement, unrestricted access to places unknown and the anticipation of cashing in your chips to hop on the next flight out. We took much inspiration from our many trips to Mexico and Nicaragua to create a collection of everyday shirts that are extraordinarily soft, versatile in design and fit.
